Report on Field Work

(Visited to Khanapur forest, shaneshwar pond and Gayamukh on 21.10.2022)

Khanapur forest, shaneshwar pond, the Basavagiri natural resources of Gayamukh forest and is rich in Biodiversity and kosam lake nearer to heritage.

We the student of B.Sc IV semester students along with **Dr.B.S.Babnoor HOD of Botany Department, Jadhav Anil kumar, Nageshwari k swamy and Rasika patil** visited to Khanapur forest, shaneshwar pond, Gayamukh forest and Basavagiri.

Khanapur forest is around 10-15 KM away from Bidar City. It is dense forest and Biodiversity richness having varieties of Flora and Fauna.

Departure: 9.00 AM from college campus.

We arrived Basavagiri, papanash at 9.30 am. We all observed different kind of plants studied about them visited the pond which is present near papanash temple, and collected the sample of Algae and different varieties of plants.

We left Basavagiri at 11.00am and reached Khanapur forest.

Around 11.30 am we arrived Khanapur forest with all students and Lectures we started about identification and collection of varieties of sample of Taxonomical group of plants.

- Khanapur forest had rich source of Biodiversity and it made us possible to gain knowledge about varieties of Flora like **Pteridophytes**(Ferns, horsetails and lycophytes), **Gymnosperm** (Cycadophyta, Ginkgophyta, and Gnetophyta) and **Angiosperm** (sunflower family legume or pea family), plants.

Around 2.00pm we had a Lunch and around 3.00pm we visited Shaneshwar pond and collected **Volvox, Vaucheria and Marsilea**, etc and are collected in Plastic box.

At 4.00pm we also visited nearer field of former of khanapur village. There we studied and observed that **diseased plants like Red rot of sugar cane, Downy mildew of bajra, Leaf curl of papaya, Wilt of pigeon pea, Smut of jawar and Citrus canker.**

Departure at 5.00pm we left from khanapure forest at 5.45pm we reached the college campus safely.
